GREEN VS TAN · FOR LAURA · CARD-THF, FROM WYATT'S PHONE 11/9/2026

Three of your Lab and Gear pieces: one drawing on the card and on Sarge's head

> Your new drawings were on the rack's cards while Sarge still wore the game's old ones. On Wyatt's note tonight, each of these three now has **one drawing** that the card, the mirror and the battle all show (your rule of 11/5). It goes live tonight (11/9) after 11:15 pm ET as v31.08. All three stay yours: anything you redraw replaces what is here by the same road.

---

1 · The champion's helmet: he wears your card drawing now

> *Wyatt: "For the champions hat, Update it how it looks on Sarge so it looks more like the icon."*

Your card drawing, shape for shape (crest, dome, riveted band, cheek guards), is what he wears, seated at 1.26 times the card's size so it covers his steel pot. **Your card is untouched.**

2 · The rocker hair: your pompadour, fitted to his head and taller

> *Wyatt: "The rocker hair looks cool, but currently it doesn't match the in-game aesthetic of how Sarge looks in-game, which it should. Let's adjust the rocker hair to look more like our new rocker style, a little more Tony Del Vecchio, more Elvis."*

He wore the old black mohawk under your pompadour card. Now both are one pompadour: your black, your blue sheen, your swoop with the curl at the front. Two changes from your card, both on Wyatt's word: it is **fitted to his head** (the hairline high over his brow, a chop down each cheek, the sides tight to his helmet) and the roll is **taller**. The card shows the fitted one, so the two match.

3 · The chef's hat: back to the drawing board, a tall toque as the stand-in

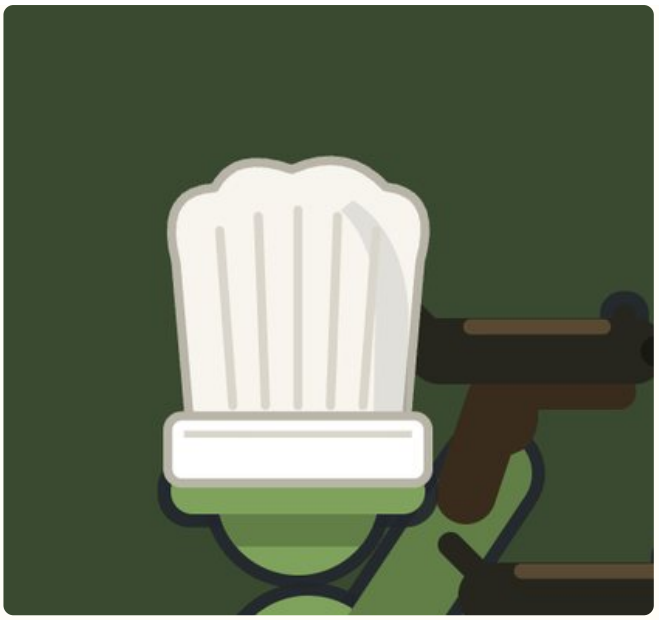

> *Wyatt: "The chef's hat needs to go back to the drawing board and needs to be fixed. You can tag in Laura on this, but please give us a recommended fix."*

The recommended fix that goes in: a **tall toque** in your recipe (flat tonal panels, the soft outline, your depth and grain on the card): a short snug band, a pleated body flaring up out of it, a puffed top spilling over in five lobes. The card and his head show the same hat.

Yours to do, only if you want to: redraw the chef's hat (or the hair, or tell me the helmet should sit differently). Send the drawing the way you send any piece and it replaces this one on the card and on his head. If the toque is fine as it stands, tick it Finished on the sheet.

- The colour wheel still tints all three, on the card and on Sarge.
- On one device, `?thf=0` shows the three as they were.
- The card drawings as files: design/three-hats-fixed-1109/art/chefhat.svg and rockerhair.svg.
